

QP Automation

a Quad Plus Company

SIEMENS

- Automation, Networks, HMI & Industrial Computers
- RFID & Real Time Locating Systems
- Motion Control, Drives & Motors
- Industrial Controls
- Low & Medium Voltage Power Distribution

TT Electric

AC Square Motor

This asynchronous motor has been developed and designed to achieve the same high performance and dimensions as DC motors of similar power.

DC Motor

Our Drop-In solution permits adaptation of footprint, shaft extension and flanges to match dimensions of almost all DC motors in the market.

INNOMOTICS

HV AboveNEMA

High voltage motors for challenging applications. Horizontal AC induction motors up to 20 MW (27,500 HP) and AC vertical motors up to 6 MW (8,000 HP) with voltage ranges from 460 to 13,200 V for a wide range of heavy industrial applications.

WEINTEK

- HMI Products

Leuze

Safety & Sensors

- Light Curtains & Light Scanners
- Switching & Measuring Sensors
- Industrial Image Processing
- Identification

TOSIBOX

Simplifying IoT

- Secure IoT Connectivity
- Remote Access
- Network Management

SoftPLC

- Industrial automation products provider
- We manufacture PAC/PLC systems, protocol converters

HD HYUNDAI ELECTRIC

- Motors

SEW EURODRIVE

Drive-automation and power-transmission solutions

WEG

- Motors
- Drives

MELTRIC

TK USA

Cables and Connectivity for Industrial Applications

TECHTOP electric motors

AVTRON ENCODERS

We are the largest-selling brand of heavy-duty encoders, and we've brought our durable reputation and expertise to light-duty, absolutes, hazardous-duty and safety encoders as well.

NOARK

- LV Switchboards
- Power T & D

GRACE TECHNOLOGIES

- Programming Ports
- Lock-Out/Tag-Out
- Temperature Monitoring

QP Automation

a Quad Plus Company

QP Automation provides Industrial Automation Solutions. These solutions will increase profitability and efficiency. Our skilled engineering team is certified in Industrial Software, Drives, Motion Control, Automation (PLC & IO, HMI, SCADA), Networking and Electrical Control. The focus of QP Automation is for our customers to achieve their complete Industrial Automation and Power solutions.

EM ENERGY SOLUTIONS

Transients, voltage & current balancing, harmonics, dips/swells, ride through

- Carbon Footprint Reduction
- Increased Energy Efficiency
- Less Downtime

QP Testing

Power Systems Field Service

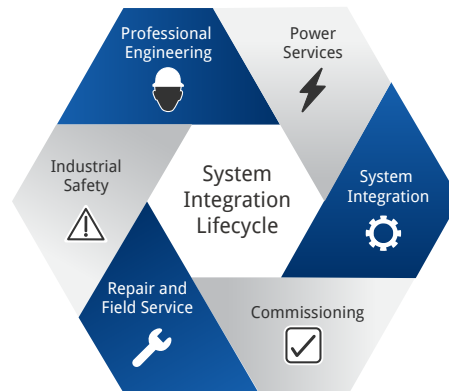

- NETA Accredited Technicians
- Acceptance Testing
- Commissioning
- Maintenance Testing

Quad Plus®

Your Engineering & Technology Partner

- Control Engineering Services
- Industrial Safety
- Commissioning
- System Integration
- Repair & Field Services
- Drive Repair

QP Breakers

Industrial Circuit Breakers

- Inspection and Evaluation Services
- Repair
- Recondition
- Retrofit

QP Automation

Industrial OEM Panel Shop

- Full Service Panel Shop
- UL Certification
- CAD Drawings

Cooper & Associates

Power Studies & Structural Engineering

- Industrial Engineering Services
- Technical Services
- Project Coordination
- Remediation & Assessment Services
